

Dear Families,

We are looking forward to a great year at Noah Webster. We are excited about our reading and math comprehensive curriculum programming. At Noah Webster we use core content curriculum by McGraw Hill. This allows students to access their student materials, activities, and workspace through one site. This site can be accessed at home as well through Microsoft Office 365.

1) Log in to Microsoft Office 365 at:

<https://www.office.com/>

2) Student will log in with their Noah Webster student log-in credentials: email and password (Your child's teacher can provide this information if needed).

3) Once you are logged into Microsoft Office 365, choose the Apps Launcher icon at the top left.

4) If the Clever icon is not visible, please choose the All Apps icon at the bottom of the Apps Launcher screen.

All apps →

Clever

5) Choose the Clever icon.

6) Select log in with LDAP: Student will log in with their Noah Webster student log-in credentials: email and password

7) Choose the McGraw Hill icon.

Thank you for partnering with Noah Webster and supporting your child's education.
